

## BASIC CODE CART REVISION

AUG 2004 (1)

EFFECTIVE MONDAY, AUGUST 9, 2004,  
THE CPR COMMITTEE WILL MAKE A  
SMALL CHANGE TO THE BASIC CODE CARTS.

ONLY ONE OF THE TWO STEEL OXYGEN CYLINDERS (WITH THE OLD  
REGULATORS) WILL BE KEPT WITH EACH BASIC CODE CART.

RESPIRATORY THERAPY WILL REMOVE THE STEEL OXYGEN CYLINDER  
THAT IS NO LONGER NEEDED.

WHEN RE-ORDERING OXYGEN CYLINDERS FROM RESPIRATORY  
THERAPY, BE SURE TO SPECIFY WHETHER A STEEL OR ALUMINUM  
OXYGEN CYLINDER IS NEEDED:

STEEL FOR THE BASIC CODE CART.

ALUMINUM IS FOR ALL OTHER PROCEDURES INCLUDING  
ACLS CRASH CARTS.

QUESTIONS—CONTACT MELANIE ELDER AND DENNIS BROWN BY E-MAIL  
OR PHONE 301-435-2369.

*“Thank you for your anticipated cooperation.”*
